Art exhibition

SPIRITUAL HOUSE

March 24 - April 27, 2007

VERNISSAGE Saturday March 24, 2007, 12 - 17

The exhibition offers various works of painting, sculpture, photography, found objects and mixed media.

La casa de los espíritus - the house of spirits of Isabel Allende is the source of inspiration to this exhibition.

All houses, each home has its own traditions and its family history.

Memories, and moments are stored in the house. If the house could speak to us in words, we would hear magic and mysterious stories of old practice and rituals. The houses would show their true natures, their unique souls, their secrets.

*" I do not want to live in a house with high, compact walls and closed windows.
Winds of culture from all countries will blow freely through my house,
but none of them will bring me with them. I want to have both feet on the ground".
Mahatma Gandhi*
